FOR IMMEDIATE RELEASE

AirTran Airways Answers Fall Break Demand at Huntsville International Airport

More Seats, Additional Flights to Orlando in October

HUNTSVILLE, Ala., August 17, 2010 – Huntsville International Airport today announced AirTran Airways will increase the number of flights and seats to Orlando International Airport in October to accommodate increased demand due to fall break at area schools.

As a result of the high passenger demand, AirTran Airways is adding an additional flight on October 2, 2010 and October 9, 2010. The airline is also adding more capacity by upgrading selected flights to be operated with the 137-seat Boeing 737 aircraft on peak travel days during the week of October 4 through October 10, 2010. For schedules and additional flight information visit, www.airtran.com.

According to Rick Tucker, Executive Director, Huntsville International Airport, “We are excited to see AirTran respond to our market needs – fall break is a peak vacation time for our region and this additional capacity to Orlando will provide our passengers more choices at great low fares,”

“AirTran Airways is pleased to add quality low-fare service and larger aircraft during the fall break in October,” said John Kirby, senior director of strategic planning, AirTran Airways. “This expanded service will help our customers with a fall getaway, and with Wi-Fi on every flight, they can stay connected to friends and family along the way.”

The following nonstop flight between Huntsville/Decatur and Orlando will be available on October 2, 2010:
